*Roundnet is the actual name, while Spikeball is the most popular brand that sells the equipment.*

# *Spikeball*

## HOW TO PLAY

- 1 The Spikeball net and ball come with foldable legs and a frame that can be easily assembled.
- 2 You will need two teams of two. Team 1 serves to Team 2 to start a point.
- 3 Players have up to three alternating touches to return the ball to the net.
- 4 After the serve, players can move or hit in any direction.
- 5 Points are scored when the ball hits the rim, the ground, or bounces more than once on the net.
- 6 The first team to score 21 points wins the game. You must win by two points.
